

## Annual Default Prevention Grant Meeting 2013

The annual meeting was held on May 1, 2013. After the welcome attendees heard from a guest speaker from AFCPE about her experience as a financial counselor and then how one of the institutions uses a "cash cab" to promote financial literacy and help students be more informed about their loans. Another school told how they are able to meet with all incoming families of freshmen so that they understand how much support their student will need. A staff member from MDHE shared information about rehabilitating defaulted loans and another described information available from the FedLoan servicer. At the end of the day attendees were given time to network.

### Agenda

Welcome, Marilyn Landrum
